1	While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not open or save this software. <u>What's the risk?</u>			

Save the file in a place where you can easily find it again. Unzip the contents. For Example : C:\Download POI's

Installation

StreetPilot 7500

Before you can load Safety Camera Database onto Garmin Device you need the following :

- A PC with a spare USB Port
- The Garmin POI Loader installed
- The latest Speedcam's from POIHandler.com
- The Garmin device itself
- The supplied USB cable

Connect your Garmin device to your PC using the USB data cable. The USB cable is supplied with your Garmin product. Garmin is powered using the USB Cable.

Installing the Garmin POI Loader

The Garmin POI Laoder application is available for free from the Garmin Website. To get the latest version of this software you will need to download it from the garmin Website at

<u>http://www8.garmin.com/support/collection.jsp?product=999-99999-12</u>. The download is about 11Mb in size and will take a while to download on a modem connect, or a few minutes on a broadband connection.

Click Next all the POI's 'll be imported into the Garmin Device.

info@polhandler.com

W www.poihandler.com

E

From the main application screen click in the browse button and navigate tot the safety camera folder on your computer. Once you have found the correct folder press next. For example : C:\Download POI's

This will start the download and conversion process. It will take a few seconds to download the full set of Safety Camera's into the Garmin device. When that is complete the Garmin device will reboot. Your Garmin device is now ready to use with all the Safety Camera's loaded and default warnings configured.

If Default warnings are not what you want then you can select Manual instead of Express and configure each file in the folder individually. (Express setup is recommended)!

A GADMIN	
Congratulations! You have successfully installed 2384 Points of Interest on your device.
